Deepak Kumar

Full Stack Web Developer

Professional Summary

****Professional Summary:**** Innovative and detail-focused Full Stack Web Developer with strong proficiency in the MERN stack and RESTful API design. Demonstrated ability to efficiently utilize Generative AI and quickly learn new tech stacks. Skilled in collaborative problem-solving, database optimization, and seamless front-end and back-end integration.

Projects

Beauty bebo clone

- Developed a full-stack web application clone of Beauty bebo using the MERN stack, ensuring high performance and scalability.
- Designed and implemented efficient server-side APIs with Node.js and Express.js to handle various user requests.
- Created and optimized MongoDB database models and queries for product listings, user data, and transaction records.
- Developed responsive and interactive frontend components using React.js to provide a seamless user experience.
- Ensured seamless integration between frontend and backend components, facilitating smooth data flow across the application.
- Conducted comprehensive testing and debugging to identify and resolve issues, ensuring application stability and reliability.
- Collaborated with designers to implement an attractive UI and improve frontend design aesthetics.
- Applied the latest web development trends and best practices to enhance the application's performance and user experience.
